Subject: Letter of recommendation

As a teacher of computer science in the Abdelmalek Essaâdi University, I had the opportunity to supervise Mr Nasser MALLOULI in his Bachelor's project in the Faculty of Science Tetouan during the academic year 2018/2019.

I have always been satisfied with him, and I can assure you that he is assiduous, responsive and curious. During the period of six months that I spent with him as a supervisor, I discovered his initiative, his listening and his persistence on the mastery of his works and projects.

Accepting Mr Nasser MALLOULI in your establishment will be an asset to your renowned structure. I can attest that he really excels in the IT field of his level and will be a very good student.

Wishing you a good reception of this letter, please accept the expression of my most respectful greetings.

Signed: Adil ENAANAI
